

SPORTBASE™

CHAMPIONSHIP-TESTED

Eliminate concrete

Eliminate the need for a concrete pad and create a portable playing surface with SportBase. SportBase can be installed over almost any flat prepared surface, helping you avoid landscape restrictions and the use of heavy machinery during installation.

Eco-friendly

Make your outdoor court "green" with SportBase. SportBase is made is from 100% recyclable polypropylene, saves energy use in installation and reduces carbon emissions. The average SportBase installation saves the energy equivalent of the amount of electricity used in a typical US home in one year while reducing carbon emissions equal to driving 5,600 miles in your car.

Increased Safety

SportBase is designed to provide players with 3 times the shock absorption of any other outdoor court system. It provides the highest head-impact rating to help protect against injuries from falls.

Proud to be the official court of the most demanding athletes in the world.

Why SportBase?

Shatter Resistant at -51°C
Reprocessed Polypropylene Mix
Provides Lightweight Structure (7 lbs)
per 17.875" x 17.875" x 2" (2.22 sq. ft.) Panel

Quick Locks Allows
4 Panels to be Installed
(1000 sq. ft. < 10 Minutes With
Team of 4 on Prepared Base)

Injection Molded
Easy to Assemble
Puzzle Design

Deep Groove Grid & Raised Spikes
Provide Increased Grip for Top Performance
Sports Surfaces to Reduce Court Movement

.75" "Stabilization" Holes Allow
Panels to be Secured to Sub Base if Needed
and Provide Drainage

Chemical Resistant SportBase II
Passes ASTM Tests D543-06 & D1308

Side Drainage
